

Premium Fiberglass Doors with TDL and SDL Glass

Introducing the Most Innovative and Elegant Fiberglass Entry Doors...

MaxCraft is proud to introduce two collections of the most innovative fiberglass doors that will bring the ultimate beauty and luxury to any home.

American-Classic™ Collection

Our flush glazed American-Classic mahogany and fir grain fiberglass doors with integral fiberglass TDL and SDL muntin bars are designed to match the beauty of natural wood doors with minimum maintenance.

Doors with TDL Glass

Our most innovative TDL doors feature flush-glazed design with **integral molded fiberglass TDL bars**. With individual pieces of insulating beveled glass glazed between the muntin bars, these uniquely engineered doors offer clean lines and an authentic wood door look that complements a wide range of architectural styles from Craftsman or French Colonial to rustic or cottage style homes.

Doors with SDL Glass

A great alternative to TDL glass is SDL glass. American-Classic SDL doors feature **integral molded fiberglass SDL bars** on both sides of the glass with internal spacers. Compared with vinyl SDL muntin bars which are industry standard, integral fiberglass SDL bars eliminate any gaps between the door and SDL bars. Besides, they don't expand, shrink or peel off as vinyl bars do.

IronMax-Classic™ Collection

Wrought iron doors are luxurious as they can create a classic beauty and bring a real old world rustic charm to any home. But these very heavy usually need a crew to install. They are not thermally broken and thus not energy efficient. Doors exposed to below freezing climates may set on the interior of the door. They can also easily lead to rust due to scratches.

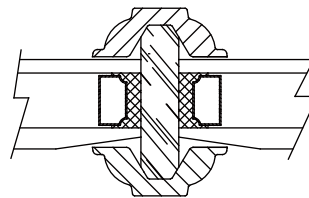

Our IronMax-Classic black smooth fiberglass doors are created to resemble the luxury of wrought iron doors with the performance of fiberglass doors.

Standard Prehung Features

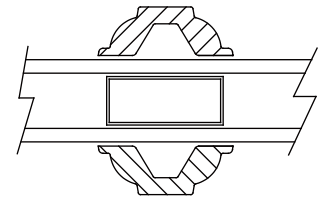

- ▶ 4 9/16" or 6 9/16" composite jamb and 2" composite brick mould can be stained or painted
- ▶ Ball bearing hinges provide lasting smooth operation; Available in oil rubbed bronze (ORB) and satin nickel
- ▶ Adjustable sill with composite substrate. Available in oil rubbed bronze (ORB) and mill finish
- ▶ Double bore on active panel is standard. Single or double bore on the inactive panel is optional
- ▶ American-Classic doors from the manufacturer come unfinished. Finished colors shown in this literature are for illustration purpose only
- ▶ IronMax-Classic doors from the manufacturer come primed black and ready to paint. They may be used as they are or top painted a color of your choice with a high quality water-based exterior grade paint
- ▶ **LIFETIME LIMITED WARRANTY**

Quality Features

- ▶ Patent pending flush glazed fiberglass doors with TDL and SDL glass offer the same elegant look of traditional solid wood doors
- ▶ TDL/SDL bars and door skin are of integral fiberglass construction
- ▶ TDL design consists of individual pieces of beveled glass. SDL design consists of a single piece of insulating glass with internal spacers
- ▶ Won't crack, swell, bow, warp or rot as traditional wood doors do
- ▶ Polyurethane foam core provides high energy efficiency
- ▶ 45" lock block adds strength and security in the lock area

TDL Glass Construction

SDL Glass Construction

Quality Features

- ▶ Flush glazed black smooth fiberglass doors resemble the luxurious look of wrought doors without the drawbacks of wrought iron such as rusting and poor thermal performance
- ▶ Polyurethane foam core provides high energy efficiency
- ▶ Solid aluminum alloy grille will never rust. It is hinge mounted to the exterior of the door and can be opened for easy glass cleaning
- ▶ Low-E hammered privacy glass is standard
- ▶ Doors are thermally broken and suitable for all climates
